VIREO LED

Replaceable patterned light panel

An aluminium skirting system framing a replaceable illuminated decorative panel. Upper and lower aluminium borders define the panel, allowing a pattern or project graphic to become part of the interior perimeter.

PRODUCT REFERENCE

ORIGINAL SECTION / NOT TO SCALE

Dimensions & specification

Material	Aluminium; the technical datasheet lists EN AW 6463 T6 and EN AW 6061 T6. Confirm the alloy for the ordered section.
Section variants	100 x 20 mm (height x projection)
Length	2,500 / 2,700 mm - conflicting references; confirm before ordering
Published mass	0.584 kg/m
Published section perimeter	362 mm

Original source section drawing, not to scale. Read together with listed variants.

VIREO LED

Specification & installation

Before specifying

- Length requires confirmation: the technical table and datasheet state 2,500 mm; the catalogue or descriptive text states 2,700 mm. These are conflicting references, not confirmed alternative lengths.

- The web prose calls 100 mm a thickness; the variation table and drawing identify it as height. Panel design, diffuser specification and electrical components require confirmation.

Listed finishes

Matt silver anodised; RAL 9016 white / semi-gloss powder coat; RAL 7016 anthracite / semi-gloss powder coat; RAL 9005 black / semi-gloss powder coat

Finishes and matching components require confirmation in the quotation; screen images are not calibrated colour samples.

Installation

1. Secure the rear carrier, integrate the LED strips and driver, then fit the diffuser panel.

2. The installation guide shows 500 mm fixing intervals and permits screws or suitable silicone adhesive according to the substrate.

3. Matching corner and end pieces are described for square-cut junctions. The web text also mentions 45° mitres; confirm the selected corner system.

Components & accessories

Wall fixing brackets; Internal and external corner pieces; End caps; Replaceable patterned diffuser panel

LED integration

Designed for LED strip and driver integration. Strip width, voltage, power, IP rating and supplied electrical components are not specified; confirm the complete lighting assembly before ordering.

The technical documentation identifies transparent PVC diffuser strip. Confirm exact diffuser and LED compatibility for the selected assembly.

Reference status

Compiled from authorized product documentation. This reference records available information and unresolved differences; it is not a certified production drawing, warranty or stock offer. Agree the final alloy, dimensions, finish, supply scope and suitability before ordering.
